

# ENFit Conversion Specifications

Safecor Health’s services include repackaging medications in amber NeoMed ENFit syringes. Syringe sizes include 0.5 mL, 1 mL, 3 mL, 6 mL, 12 mL, 20 mL and 35 mL. Your pharmacy selects the syringe size and dose fill for each repackaged NDC#. Purple tamper-evident ENFit caps are also available upon request for controlled substance medications.\*

Please use the following form to provide us with detailed instructions regarding your repackaged liquid products in ENFit syringes. These detailed instructions will enable Safecor Health to accurately plan for and execute changes to your current oral liquids repackaging preferences.

Once all information has been received and confirmed, Safecor Health will schedule a specific date for the effective changes to your ENFit syringes. Please confirm any unit-dose bar code content changes in the form provided for each NDC# and dose sizes in the desired ENFit syringe configuration.

All previous unit-dose preferences (oral syringes and specific unit-dose cups) converting to ENFit will be removed in the Safecor Health system upon converting to ENFit to ensure accuracy of future orders. Once your pharmacy converts to ENFit syringes, standard oral syringes will no longer be an active service on your account.

**Return completed form to [ENFIT@safecorhealth.com](mailto:ENFIT@safecorhealth.com).**

## Desired ENFit Conversion Date

|                     |                |                    |
|---------------------|----------------|--------------------|
| Hospital Name ..... |                | DEA # .....        |
| Address .....       |                | Contact Name ..... |
| City .....          |                | Phone .....        |
| State .....         | Zip Code ..... | Email .....        |

## List of *current* products to be converted

| Drug Name/Strength | NDC Number | Dose | Estimated # of Syringes/ Month | Bar Code Content (Same # or New #; If new, please include # below) | Current Format (Cup or Syringe) | New ENFit Syringe Size Needed | Tamper-Evident Cap?*(Yes or No) |
|--------------------|------------|------|--------------------------------|--|---------------------------------|-------------------------------|---------------------------------|
|                    |            |      |                                |  |                                 |                               |                                 |
|                    |            |      |                                |  |                                 |                               |                                 |
|                    |            |      |                                |  |                                 |                               |                                 |
